Subject: Belsize Launderette Ref: 218/2824/PP

Dear Obote Hope

I strongly object to this Planning Application. The loss of this Launderette will be a great loss to locals as there is no equivalent facility nearby. Judging by how busy this launderette is - I have to go in the daytime only if I'm to get a free machine - there are still many people who do not own their own washing machines. The Council needs to consider the impact it would have not only as an amenity but also as a village meeting point for many residents. There is already enough retail in the village. Launderettes are essential facilities to the community.

I request that the Council imposes "article 4" to ensure this essential amenity is retained.

Thank you for your consideration

Best Wishes

Janine Sachs
