Dear Sir / Madam

Re Opposing Planning Application for Flat A, 7 Denning Road NW3 1ST

Ref. 2018/0018/p & 2018/3549/p planning application 7A Denning Rd.NW3

[REDACTED]  
I have lived [REDACTED] since 1990 apart from a period of about four years when I lived overseas and rented my flat because of my former husband's teaching job.

I did make a postal application trying to oppose the first planning application but I didn't receive a response, and the planning permission was granted. I am writing again in the hope of opposing the second application both by email and also by post just to give every chance of you receiving it.

After a visit on Thursday to Pat Traynor's flat, owner of flat A at her invitation, to see exactly what she proposes to do with her extension, I was completely shocked to learn of the full extent of the proposed extension. It covers a vast area including, a raised glass ceiling or roof that would come just beneath [REDACTED] This would flood [REDACTED] at night with light pollution. It would also be a real encroachment on [REDACTED] sleep and sense of well being and [REDACTED] would really be hemmed in [REDACTED] look out the window onto her proposed extension.

I have told my neighbour, Pat Traynor, of my intention to oppose her application on account of the light pollution and encroachment of space and outlook. I do hope that you will give my application to oppose planning permission full consideration.

Looking forward to hearing from you.

Best wishes  
Carole Berman
