2018/3831/P	Jeff Claxton	21/08/2018 12:56:04	OBJ	<p>I wish to object to this application on the grounds that it will take part of the public highway and provide little of no utility to the public. It will also obstruct pedestrian traffic.</p> <p>In the days of mobile phones, telephone kiosks are not used by people for making phone calls but are used by unsavoury people for posting stickers and cards advertising the services of prostitutes. In any orientation on the footpath, it obstructs the flow of pedestrians and this particular location is near to several hospitals and therefore used by people with limited mobility.</p> <p>This seems to be a cynical attempt to get easy advertising space using loopholes in the planning laws.</p> <p>I therefore ask that this application should be rejected on the ground that it provides no public utility but does constitute a public nuisance.</p>
2018/3831/P	Eric Stuart	21/08/2018 11:39:39	OBJ	<p>I strongly object to the installation of a public call box at this location.</p> <p>There is no need for public call boxes in this location – existing public call boxes nearby are only used as a shield for drugdealing/using and other anti-social behaviours, and are never used for their intended purpose as virtually all UK residents and tourists carry mobile phones.</p>
