2018/3043/P	Roger Gifford	28/08/2018 12:04:11	OBJ	I object to this application. The height of the new floor proposed is wholly out of line with the existing street landscape which is in a conservation area and it would look out of place. It would also have a clearly negative effect on the light / shading received by affected houses nearby. From an aesthetic point of view it would be out of scale with the existing building and have an adverse effect on the character of the area, where there are listed buildings on both sides of the road. It can be noted that the house already has one more floor than any other residential house in the street.
2018/3043/P	Thea Waxman	28/08/2018 22:09:17	OBJ	This vertical extension of number 33 Inverness Street would be visible from street level (unlike the plant room on the school) and be totally out of scale and out of character with the height of the rest of the terrace, as well as with the new Cavendish school building. This would cause a very negative effect on the look of the street, which is in a Conservation Area. Number 40, 42 and 44 Inverness Street opposite are listed, as are numbers 37 to 43 on the same side. This proposed development would detract from the heritage character of the area and its preservation, detracting from the setting of these protected terraces. The extra high building would also cast shadow across the street onto numbers 40-44 reducing the light.
2018/3043/P	Malcolm	28/08/2018 21:12:16	OBJ	breaks continuity of the street as originally designed
2018/3043/P	Richard Harding	28/08/2018 20:49:05	OBJ	I would like to object to the proposed extension. It is far too tall, and out of keeping with the rest of this half of Inverness Street. We were surprised that the current top floor was permitted.
2018/3043/P	David and Sue Gentleman	28/08/2018 20:31:54	OBJEMPER	This plan is unacceptable. The adjoining buildings leading up to Gloucester Crescent are all roughly the same height and it would do serious harm to the visual unity of the street to add another floor to number 33.
2018/3043/P	David and Sue Gentleman	28/08/2018 20:31:35	OBJEMPER	This plan is unacceptable. The adjoining buildings leading up to Gloucester Crescent are all roughly the same height and it would do serious harm to the visual unity of the street to add another floor to number 33.
