2017/7112/P	Hessom Arta	29/08/2018 21:49:38	OBJ	<p>I am writing to object to this planning application. The application represents gross over development of a single family home, within a residential area and is completely out of keeping of the character with the row of houses but also the location in the neighbourhood.</p> <p>Furthermore, the location of the property backs onto Canal Boulevard and directly onto my property. I object on the grounds that I do not want the neighbourhood to become even noisier, which the addition of 6 further flats, housing a proposed 16 people living here, will invariably cause. Additionally, the back of property is situated at an intersection where there is a courtyard which already echoes noise considerably and so it is a very poor location for development of 6 flats in what was originally intended as a single family home and the impact will be felt by a large number of residents.</p> <p>This development will therefore grossly impact the neighbouring residents with regards to the additional noise and sound pollution.</p> <p>In addition to this, it will have a negative impact on the overall residential neighbourhood, placing greater strain on existing infrastructure and services, affecting the roads, parking space, public transport etc.</p> <p>Additionally the basement plans seem absurd and inadequate but will also have a major impact on living in the area whilst this construction is going on - and will majorly impact those properties behind/next to this site.</p> <p>I therefore object to this proposal and request that this application is refused.</p>
