#### Informative(s):

##### 1 Reasons for granting consent

The proposed internally illuminated signage would hang in front of the recessed entrance and would complement the building's contemporary architectural style. Kirby Street is characterised by modernist and contemporary buildings, with some internally illuminated signage in existence. Given this context, the proposed illuminated sign is not considered detrimental to the established character of its surrounds nor that of the wider conservation area. The proposed window etchings would be small scale and not unacceptably intrusive along the building frontage.

By reason of the nature and siting of the signage there would be no significant impact on the amenity of neighbouring occupiers.

No objections were received prior to making this decision. The planning history of the site and surrounding area were taken into account. Special regard has been attached to the desirability of preserving or enhancing the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

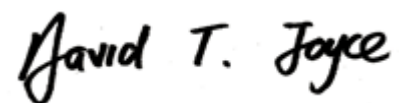

The proposal is in general accordance with Policies A1, D1, D2 and D4 of the Camden Local Plan 2017. The proposed development also accords with the policies of the London Plan 2016 and National Planning Policy Framework.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
