2018/3363P	Paul Farrow	01/09/2018 15:59:47	INT	<p>[REDACTED]</p> <p>We have reviewed the plans and have a couple of comments.</p> <p>First, I was surprised to see that the architects' drawings (Fig 17 in the Design and Access Statement) did not show the existing extension to the rear of our property. This is on the right-hand side, when viewed from the rear, and extends approx. 3.9 metres behind the main body of the house. The wall facing up the garden (towards no 56) is almost all glass, and our view is therefore towards the planned extension at no. 56. I wonder why the architects didn't include it in their drawings, as they did for the existing extension at no. 58 (see Fig 16 in the same document).</p> <p>Secondly, as far as I can see, the drawings do not include any measurements or angles to allow a full judgement on how far the planned extension overlooks our garden. However, it is clear from sections 4.5 and 4.6 of the same document that the large glass doors will be angled towards us.</p> <p>Given that the documents as submitted do not represent the current state of affairs (our existing extension) or provide enough information for an informed opinion (on the angle of the planned extension at no 56), I wish to register my concerns, which I hope the relevant planning officers will take into account.</p> <p>If you need further information on [REDACTED] existing extension at no [REDACTED] we will be very happy to supply it. (ENDS)</p>
