Dear Planning officer

Please find all the supporting images, articles etc as my clients, Mr & Mrs Stern of 109 Frognal NW3 6XR would like you to consider their request to have the outbuilding located in a discrete corner of their garden to be demolished. The building has become very tired over the years and it is not needed for storing of garden tools.

They would like to see the site without the no longer fit for purpose small outbuilding. The safe considerate removal will give them the opportunity to consider a gothic style or green house style summer house, which based on the evidence I have provided once stood there over the years. Either summer house would be reinstated on its footprint which can then be used for them to enjoy their retirement years.

I look forward to showing the outbuilding in the very near future.

Kind regards

Charlotte Heather
