Subject: Re Planning Dept, application no 2018/3241/HS2

Dear Gideon,

I am writing as a resident of [REDACTED] in reference to planning application 2018/3241/HS2.

I understand there is a current consultation period - though it is a shame this has come to my attention so late as it appears to have been advertised poorly and over August.

The substance appears to be up to 40-70 lorry trips per day over up to 16 months to remove waste from the demolition of buildings in preparation for HS2, across Harrington Street, in a hugely populated residential area.

As I understand it, the original agreement with HS2 involved far fewer lorries, and to use Granby Terrace as the main route - passing far fewer residents.

This clear has huge implications for noise, air pollution and safety in the area. I would like to object to the proposal in the strongest terms, and suggest that severe limits on the number of lorries need to be enforced, and the original Granby Terrace route reinstated to limit the impact.

I would also like to know what sort of compensation and/or protection may be offered to residents in either scenario given the severity of this activity.

Please confirm receipt, and I would appreciate being kept up to date with progress on this application.

Regards,

Will Young
[REDACTED]
