I object to this application to remove the two gables. The building that has been erected has a very square stark appearance, totally out of keeping with the local architecture. In our opinion the gables MUST be provided as per the planning permission to create the softer appearance originally anticipated. Please refuse this application.<br/>Barrie Tankel FRICS</p> |

As it stands, the building doesn't poses the architectural qualities of the majority of the surrounding buildings in this conservation area.</p>   |
