

Appendix 4: 6A Security Lighting

EXTERNAL SECURITY LIGHTING

- 6 lights: Front x 2, Side Passage, Rear Patio x 2 and above side Basement steps
- 4 PIRs: Front, side, above Basement steps, and rear
- Security lights to independently or together with the option to turn this circuit off if you are using the garden in the evenings.
- Steinel LED floodlights in black or graphite
- Security lights to be bat friendly which means a maximum output of 2000 lumens (150w).
- With the lights on the side passage these need to be positioned so there is minimal effect on the neighbours. The fence between us and the neighbours will be 1.8m high.
