2018/3263P	Matteo Carrocia	16/09/2018 20:06:45	OBJ	<p>I welcome the arrival of new residents [REDACTED] but I seek reassurance that all 3 party walls will be meticulously soundproofed. The living areas of all apartments are directly adjacent [REDACTED]. Personal experience teach that Georgian brick walls are inadequate to break sound. I also noticed that in the proposed layout TV and sound equipment will very likely be placed or even hung directly on my party wall. I recognise sound spill is only a problem when developers overlook placing sound insulation against party walls, and hig h-spec materials eliminate the problem almost entirely.</p> <p>I also want to add that my property is grade 2 listed, so placing modern soundproofing is very likely to contravene conservation regs.</p>
