Re: Planning Application for Gondar Gardens Reservoir.

My objections to any building on the above are:

1. This area is subject to subsidence. Building works and increased traffic will inevitably have a detrimental effect on the roads and dwellings surrounding the Reservoir.
2. For our mental and physical welfare, we need to protect our open spaces.
3. West Hampstead has seen a massive increase in the building of blocks of flats with more to follow. 'High End' residences we do not need.

B. Dyal
