2018/3976/P	M Michaelson	22/09/2018 13:31:00	OBJ	<p>The Plant Noise Impact Assessment Report para 5.7 quotes paragraph 117 of the NPPF which states that "Planning policies and decisions should promote an effective use of land in meeting the need for homes and other uses, while safeguarding and improving the environment and ensuring safe and healthy living conditions".</p> <p>However, as the proposed drawings of Elevations A, B and C show, the new plant and screening is significantly more prominent than the existing. The elevations are wider, deeper, and higher and the whole is a much more massive structure than the existing one. There is no doubt this will have a negative impact on the first floor flat and other neighbours in Belsize Mews in terms of views and outlook.</p>
