Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting listed building consent

The application seeks to vary the previously approved rooflight arrangement over the kitchen/dining space, the design of the proposed roof hatch over the main roof and the design of the proposed dormers. It is proposed to replace the two rooflights which were previously approved to the roof of the rear infill extension with one larger rooflight. It would be located in the same position as previously approved, and is not considered to materially alter the design or amenity impact of the approved scheme.

It is proposed to reinstate the existing roof hatch rather than install the larger dormer/roof hatch as approved. This alteration would involve less intervention than previously approved and is considered acceptable.

To the front elevation, it is proposed to install external roller blinds within a blind box concealed behind the leadwork.

The Council's Conservation Officer has assessed the proposals and does not object to the development. The full impact of the proposals has already been assessed by virtue of the previous consent granted on 29/01/2018 under reference number 2017/6034/L.

No objections were received prior to the determination of this application. The planning history of the site and surrounding area were taken into account when coming to this decision. Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas Act) 1990 as amended by the Enterprise and Regulatory Reform Act [ERR] 2013.

As such, the proposed development is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with The London Plan March 2016, and the National Planning Policy Framework 2018.
