Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

#### Informative(s):

- 1 Centre point is a grade II listed building located on Oxford Street, Charing Cross Road and St Giles High Street. Constructed between 1961-66, the building consists of three elements, a 33 storey tower to the west, 9 storey rectangular block to the east and a link over St Giles High Street connecting the two blocks at first-floor level. The building has a mixture of uses, but is predominantly commercial at ground floor level.

The proposals are to erect internally illuminated signage inside the retail unit. The size of the signage is proportionate to the shopfront and is not intrusive. The internal illumination whilst to some degree regrettable, will allow the sign to be seen through the reflective glass. As there is already a significant amount of illumination in the area, the illuminated sign will not detract from the qualities of the building or the surrounding streets. In addition, the internally illuminated PRET signs will have little impact on the appearance of the building.

There also some alterations to the internal layout proposed. The alterations do not affect any historic fabric or plan form.

The proposed works will not harm the special interest of the grade-II-listed building.

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden

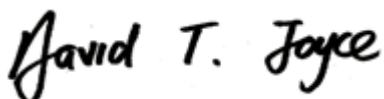

Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
