Hi Rita

This is to confirm that the hand demolition works started on 14/05/17 after the soft strip works which were carried beforehand.

Please find attached a copy of the signed construction contract with Thomas Sinden for your review which was signed 21/11/16.

I had previously spoken to the planner (Rob Tulloch) who had confirmed that there was no need to provide a copy of the signed contract but that just a statement would suffice. Please action accordingly.

Kind regards

Matthew
