Subject: 2018/4200/P - Planning application for 38 Glenloch Road NW3

Dear Sir/Madam

As the owner of the 1st floor flat at no 40 Glenloch Road, I am concerned that enlargement of the basement at no 38 may compromise the structural integrity of no 40 by undermining foundations, causing ground movement and increasing the risk of subsidence/flooding.

Please take this into account when considering the planning application.

Yours faithfully
Jennifer Morris
