Dear Mr McClue

Fire Exit Provisions: 100 Avenue Road

I have heard that the applicants for the new scheme at 100 Avenue Road are now

intending to reduce the fire exit provision from their plans.

Given the substantial new investment in fire precautions, accepted by your Council for high rise residences it owns, it is not just incongruous but unacceptable that a private sector block would be allowed to minimalise its fire exit facilities previously accepted as being necessary.

Please bear this in mind and also in writing and speech, to the building applicants and to the public.

Yours sincerely

Mallory Wober
