Dear Ms Constantinescu,

Re Planning application no: 2018/3363/P - proposal for a rear extension 56 Dartmouth Park Rd NW5 1SN

I live at 58 Dartmouth Park Rd., ground floor and garden.

I am concerned that the proposed extension could significantly block the light on a part of my patio and my plantings. The extent of this loss of light will depend on the height and projection of the new extension with respect to the existing fence between the properties.

I have expressed my concerns in a couple of comments requesting clarification re relevant measurements. I have also telephoned your number on several occasions but have been unable to get through. Please confirm that my concerns will be taken into consideration.

Please also inform me if the proposed extension falls within party wall legislation.

I await your early response.

With thanks,

Hilary Henderson
