2018/3539/P	Richard Fletcher	07/10/2018 08:06:02	OBJ	<p>There have been some outrageous planning approvals recently for the mews backing onto Belsize Crescent. Camden is completely ignoring its planning guidelines on overlooking at the cost to Belsize Crescent residents. It appears anything gets waved through these days.</p> <p>As recorded in one response, there has been constant building works to expand the rear of these small mews properties after Camden is now waiving through inadequate applications. Residents in Belsize Crescent have lost any confidence we had in the decency of the planning system.</p> <p>With respect to 9a, the rear dormers and a rear terrace will be deeply intrusive to those living in Belsize Crescent. It goes completely against Camden guidelines and should most definitely be refused. I'm pretty certain it'll be approved though.</p>
2018/3539/P	S Sigeta	05/10/2018 22:15:25	OBJ	<p>The above development would directly look into my habitable space. The addition of a terrace in particular would severely impact upon and damage my right to privacy. I feel recent granting of planning permissions have shown a dismissive attitude towards other local residents' real and valid concerns about our right to respect for private and family life. The cumulative impact of multiple houses all overlooking our habitable space cannot be ignored either. I object to this development as it does NOT increase the number of housing stock in London, while posing serious detrimental effects on other residents' everyday lives.</p>
2018/3539/P	Mr and Mrs Ziff	07/10/2018 22:04:24	OBJ	<p>To whom it may concern,</p> <p>We are concerned about this proposal as the installation of the dormer windows and terrace would see directly into two of our bedrooms.</p> <p>This would be very invasive and effect our privacy.</p> <p>Please consider this in advance to the application review.</p> <p>Many thanks, [REDACTED]</p>
2018/3539/P	Jane Hoardman	07/10/2018 16:31:19	OBJ	<p>This proposal if allowed will mean further intrusion and overlooking into habitable rooms for those many of us who live in Belsize Crescent. The distances involved completely disrespect Camden planning guidelines for overlooking, intrusion and loss of amenity.</p> <p>The rooflines of this section of Daleham Mews can be seen from Belsize Lane looking along Belsize Park Mews and are an important part of the Conservation Area, changes to these rooflines are contrary to the Conservation Area guidelines.</p> <p>The dormer height will likely reduce the hours of sunlight my small garden and basement rooms receive.</p> <p>This application must be refused.</p>
