Standard with reference numbers indicated in **bold** black are available ex-stock
Standard with reference numbers indicated in light black are manufactured to order. Contact our sales office to discuss your requirements.
*Natural products are manufactured from aggregates sourced locally to the works and contain no pigmentation, therefore colour variation between products from different works is possible.

Paving

Standard

Pimple Textured Concrete Paving

A durable, functional landscaping essential that has been proven and trusted over many years. The wide variety of colours and sizes make these Flag units suitable for a broad range of urban applications, and the raised pimples on the surface create added traction for maximum slip / skid performance. Different loading requirements are catered for via range of thicknesses and reinforcement options.

Utilising patented Fibre Technology, Standard Fibre Reinforced Paving offers increased toughness and resistance to failure from impact or overloading.

*Standard recycled paving manufactured using recycled aggregates to achieve a minimum of 80% recycled content.
