

28/9/18

Dear Alex Bushell

55 Fitzroy Park applications 2018/3672/P and 2016 /5868/prc

The 6 of us signing this letter live immediately opposite number 55 though bizarrely Camden Planning in its wisdom has not listed us as consultees -please correct that

We have immense reservations about the proposed development and will be objecting in the strongest possible terms .However for the moment we are only referring to the email that you have today received from the Chair of the FPRA

We fully support the request for your urgent attention to the 'extraordinary list of significant omissions from the submission documents

It is simply impossible for us to respond to the application until the omissions have been corrected and we suggest you postpone any deadline for such response until a reasonable period after all the omissions have been corrected

As you know the applicants have been working on this for at least 2 years without our knowledge so natural justice requires that we are given both adequate time and adequate information to enable us to properly respond

Yours sincerely

Kathy Thompson
