Details of the pre-application advice received

Since the original application was made in January 2018, we have met with members of the council's team on two occasions – on 17 April 2018 (with Matthias Gentet, Planning Technician) and on 10 August 2018 (with Steve Cardno, Principal Transport Planner). Following these meetings, we have revised the original scheme as follows to take account the concerns of the council:

1. The new gates will be of a reduced height of 2 metres, with a design incorporating simple vertical bars to prevent unwanted climbing over the gate.
2. We will ensure that the operating range for the remote opening device will be around 100 metres, to give enough time for the gates to open as cars approach. We will aim for the responsive opening time of the gates to be 10 seconds, to ensure that vehicles can drive straight in on approach.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
