INTERIM CERTIFICATE

(Issued at Design Stage)

Certificate Number: BRE-00032663-DS-001-03-0003

Score: 69

What Your Code Star Rating Means

Combined Score	36-47	48-56	57-67	68-83	84-89	90-100
Stars	1	2	3	4	5	6

The Code for Sustainable Homes considers the effects on the environment caused by the development and occupation of a home. To achieve a star rating, a home must perform better than a new home built to the minimum legal standards, and much better than an average existing home.

How this home scored			What is covered in the category									
Category	Score	Percentage of Category Score attained										
		10		20	30	40	50	60	70	80	90	100
Energy	53	[Bar chart showing 53% attainment in dark blue]										Energy efficiency and CO ₂ saving measures
Water	66	[Bar chart showing 66% attainment in light blue]										Internal and external water saving measures
Materials	54	[Bar chart showing 54% attainment in teal]										The sourcing and environmental impact of materials used to build the home
Surface Water Run-off	100	[Bar chart showing 100% attainment in light green]										Measures to reduce the risk of flooding and surface water run-off which can pollute rivers
Waste	100	[Bar chart showing 100% attainment in lime green]										Storage for recyclable waste and compost, and care taken to reduce, reuse and recycle construction materials
Pollution	25	[Bar chart showing 25% attainment in yellow]										The use of insulation materials and heating systems that do not add to global warming
Health & Wellbeing	83	[Bar chart showing 83% attainment in orange]										Provision of good daylight quality, sound insulation, private space, accessibility, and adaptability
Management	100	[Bar chart showing 100% attainment in red-orange]										A Home User Guide, designing in security, and reducing the impact of construction
Ecology	77	[Bar chart showing 77% attainment in red]										Protection and enhancement of the ecology of the area and efficient use of building land
