Also include the proposal for their replacement, including any new means of structural support, and state references for the plan(s)/drawing(s).

I renewed the existing badly-fitting 1980's single glazed windows with double glazed units in 2011, to match the configuration of the existing sash and French windows, including the size of the frames and surrounds. The windows for Flat 1 are below ground level at the front (\*\*photographs attached). No listed building consent was sought at the time as they were considered to be 'like for like' repairs which matched the original work and thus (according to Camden Planning guidelines) did not need listed building consent. The windows were set into the existing box frames. The only alteration was to replace the single glazing with double glazing (see Woodland quotation).

It is an important principle of decision-making that the process is open and transparent.

Yes  No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
