2018/4763P	Ron Ganbar	19/10/2018 14:13:33	OBJ	Unfortunately this new block will obstruct natural sunlight and the remnants of a green view for residents and it will most likely impact some property values. I would also suggest that having just a single affordable flat in this otherwise affluent block, is hardly a good excuse. If it was 5+ flats, maybe there's merit.
2018/4763P	Nicola Bradley	18/10/2018 18:40:47	OBJ	We are writing in response to a letter regarding a planning application on the property mentioned. We wanted to respond [REDACTED] that we are very unhappy with the plans as they stand - the building would completely block our current view and the view of all those in block 4. All residents in this block will be affected as the main living room windows face towards the new building in all of the properties. This would diversely impact our day to day living, including losing sunlight. Natural lighting and a green, lower rise view were two keys reasons we purchased the apartment in 2005 and we really hope this will not change.
