| 2018/4839/T | Ali Hammad | 29/10/2018 11:14:39 | SUPC | Though in principal we have no objection to trimming trees, we would be concerned in this instance that the tree trimming is guaranteed to preserve our privacy in the first instance, and that it does not reduce the noise buffer the trees provide from the noise from the school. The trees provide a privacy shield from the school classrooms and the play ground and it is mutually critical for us and the school children that privacy is maintained, as our bedrooms face the rear of the school and we are directly adjacent to the play ground. We would have particular concern about any trimming that brings down the tree line to street level as this would cause a significant reduction in privacy from the higher level class rooms. We would like the trimming to be managed accordingly and monitored exactly by the Council to ensure that it is done in line with these requirements which we are sure would be appreciated by all the neighbouring and adjacent flats. |
