Subject: Phoenix House planning application 2018/4492/P

Hi both

I have spoken with Amanda at CGCA about this planning application. I have submitted an objection, but I would like to add some photos for context.

The photos show my front door and the proposed chute will run up the wall with the old glazed bricks.

I hope this is helpful.

I would also add that there were no notices posted in the area about this application. The first I heard was from CGCA. My neighbours are also unaware of this application.
