I am writing to express my concerns about this application. I do not object to the development in principle or even necessarily to the design. I wish to make it clear however that as the owner of one of the flats in this building the use of my garage is of considerable importance to me.

In order for me to remove my objection to this development, I would like a condition to be imposed upon it, that the widening the entrance to the garages does not in any way infer the right to park vehicles in the entrance or on the forecourt that might block or impair access to my garage.

Yours sincerely

Philip Wood
