2018/5237/L	Mark van Harmelen	07/11/2018 11:18:49	INT	<p>[REDACTED]</p> <p>In an age where there is a somewhat detrimental increasing lack of publicly visible clocks, I support this application.</p> <p>However I recommend that a planning condition should be imposed that the clock is removed at a stage where it is no longer maintained and/or ceases to function and/or ceases to display the correct time.</p> <p>For the latter, some specific measurable criterion is required as a planning constraint, say, the clock is required to function +/- 5 mins of the correct time, if it fails to do that or stops for a week, then the condition for removal is met.</p>
