I wish to OBJECT to the request to fell the lime on the verge outside 59 Hillway.

This is one of the whole avenue of limes , and a crucial feature of the Estate. It is perfectly healthy, and (obviously) in a conservation area.
Felling one will destroy the rhythm of the view down Hillway.

It they are allowed to fell one healthy tree , it creates a precedent for other to be felled, which is unacceptable.

It is not on the applicants property , and I very much doubt it is the cause of any movement in the house, which as we all know , have poor foundations.

I question their right even to request this , as the tree is not on their property, but on Estate land.
