2018/5125/P	Margaret Philips	03/12/2018 16:46:55	OBJ	<p>[REDACTED]</p> <p>I object to this proposal for the following reasons:</p> <ul style="list-style-type: none"><li>* Building works for such a big project will create noise, dust and air pollution over a long period of time (worsening my rhinitis/ asthma)</li><li>* Interfering with what has been a garden for over a hundred years will lessen drainage in our environment, and could disturb the foundations of neighbouring properties.</li><li>* With underground rivers (as we know too well), the possibilities of subsidence increase</li><li>* There are currently no extensions in Dennington Park Road, and there must be a reason for this: we live in a Victorian terrace, and need to keep it that way</li><li>* If the extension went ahead, there would be increased activity in the garden, affecting neighbouring properties: already, when people have barbecues and/ or parties, the noise, smells, etc are very disturbing when all windows are open. Allowing this extension would result in these effects daily.</li></ul>
