Dear Matthias

Please see the image attached.

Here are the floor plans of the swan which can be adapted to 56ft.
As you can see it includes bedrooms, however, we would have these taken out at the actual planning phase when we pay the deposit and start the process.

Unfortunately, we cannot get official plans drawn up without paying a deposit, yet we can't get planning permission without the plans.

This is the size and width of our barge, please see the note they have put on the plans.

They have been told that it will have a kitchen, then be set more like a classroom space with disabled access. A ramp would be fitted to go over to the tow path.

The toilet would move down. There is also outside space at the front.
