2018/4740/P	Mr I Sansom	06/12/2018 17:01:32	OBJ	<p>Too much building work if the application is approved An increase in noise and disturbance once the project is completed i.e. more movement throughout the day and more disturbance outside of office hours and weekends. This is a considerable problem at the moment and this development will make it much worse! At present there is a continual cycle of works going on at all hours as different floors undergo refurbishment again at all hours. An inevitable increase in noise levels which is amplified in the area at the rear of the building creates a noise nuisance at the rear of my flat. This is unacceptable at present and this application will make matters much worse. Therefore I am totally opposed to this application.</p> <p>Yours faithfully</p> <p>Mr I Sansom</p>

2018/4740/P	Charley Jarrett	05/12/2018 13:16:53	SUPPORT	<p>I'm about to start working in this building on Tuesday, so was having a little mooch on Google about Lynton House and came across this planning application. I have to say, it looks great. Central London rooftops that high are such a waste if they can't be used to enjoy the fabulous views, all the better if they come with a bar, and the provision of showering facilities for cyclists and others in the building is to be welcomed too.</p>
