

Jean-Baptiste Ranncon

22 Belsize Park Gardens

I would like to object to: 2018/4045/P

1. the installation of a front boundary gate. This is alien to the conservation area which features no such front gate at any of the similar properties

2. the brick make up of the proposed stairs. This is totally out of keeping with anything that exists in the conservation area, including the stairs at 33 Belsize Park Gardens which the 2018/4044/P application (now strangely inaccessible from your website) mistakenly says are similar - even though 33 has black & white tiles whilst 31 has amber/red brick.

Thank you.
