Dear Mrs Serlin,

Thank you for your email. While *Trachycarpus* as a genus is not anatomically tree-like; lacking a vascular cambium, given the size and form of the specimen in your photo I consider that a conservation area trees works notification is required prior to removing the tree. We can use your email and photo as the notification, once this has been validated you will receive an acknowledgement letter.

[REDACTED] Please log in my name as: 1x Chusan palm tree – fell, rear garden of 2 Primrose Hill Studios, London NW1 8TR.

Please contact me if I can be of further assistance.

Kind regards
