Wilson

My enquiry is

Dear Ms Laura Hazelton,
Re application 2018/4991/P:
We were alarmed to hear of this application - we received no notification and only became aware of it when one of our members noticed a paper on the pavement! In fact our members are unanimous in objecting to the proposed works. This is a listed building and should be respected as such. Whether viewed from the street or the rear the proposed extension degrades the original building. What is the point of having listed buildings if people are allowed to ruin them like this?
