2018/5125/P	anna franklin	12/12/2018 12:13:30	OBJ	<p>extension is proposed I would like to object to the extension in the strongest possible terms as our house will be one of those most negatively impacted by this extension. The extension would cause light pollution and noise behind our house. The extension is not in keeping with the character of our neighbourhood and the period nature of the properties and could cause a possible loss of market value for neighbouring properties. The mature trees at the end of the garden would be threatened. Camden's fast vanishing green space constitutes the lungs of our neighbourhood. When we are already overwhelmed with air pollution to build over more of the remaining back garden green space is just insanity. This extension should not be approved</p>
