Registration and Planning
Town Hall Judd Street
London WC1H 9JE

Dear Sirs,

RE; **2018/5935/T**

With reference to the above application I make the following comments:

- 1) There is not an Apple Tree (No 6 on sketch) This is a Hawthorne and does not require reducing .
- 2) The Arbutus is a mature tree that provides a good screen to the recently extended House and could be judiciously pruned/thinned to make a less dense screen.
- 3) I suggest that if the proposed works to this tree are approved then a new evergreen tree should be planted in its place.

I understand from my Neighbours that they would be happy to replace the Arbutus and would accept your decision.

David Preston
