Subject: Re felling of self seeded fur cone spruce in my garden - [REDACTED]

Dear Tree Officers,

I am applying to remove this tree which is self seeded.

There is a silver birch tree close by which was planted about the time this tree fir tree started to appear and I believe that the Birch would be grow better if this tree were removed.

Behind the fur spruce is a quince tree and to the right is a Bramley apple.

Please let me know soon as possible as this is the best time for felling if I can remove the tree? I believe that I can?

I can be contacted on [REDACTED] ( no messages other than text or landline [REDACTED] and takes messages) I look forward to hearing from you.

Yours sincerely,

Mary Holroyd.
