2018/5972/P	Martina johnson	20/12/2018 20:09:06	OBJBOBXI	Having a balcony above my window at ground level would cast a shadow to light coming into my front room. I am happy for a wider window to be created, but i am not happy about having a balcony. Also I only received the notice article 14 on the 20th December although the letter was dated on the 3rd December
