It adds to the amenity of the road and it could be thinned and retained instead of being removed . Tree protection should do just that . Protect trees which add to our living environment and not allow them to be felled for no good reason .
2018/5935/T	Melissa Berman	24/12/2018 15:30:11	COMMNT	I object strongly to this application to fell a healthy beautiful Arbutus tree that contributes to the visual amenity of street . It is a long-standing asset to the area . That it is "somewhat large for its location " should not mean it is felled to the ground . There is no good reason why it could not be attractively reduced and pruned but kept in its present position . It seems to me that the tree simply does not fit in with the plans the applicant has to develop the property. This appears to be an attempt to misuse tree protection rules and should not be allowed. Trees should be protected as they are a public amenity and add to the area considerably . I strongly object to this seeming cynical ploy to fell a beautiful tree unnecessarily .
