To Whom It May Concern

30 November 2018

Dear Sirs,

14 Templewood Avenue, London NW3 7XA

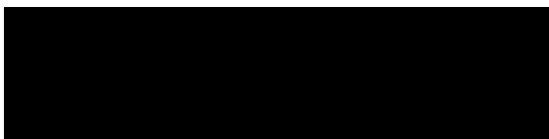

Planning permission: 2013/6912/P. Condition 6

I am writing to confirm that I have been appointed to supervise the construction of the basement works at 14 Templewood Avenue, London, NW3 7XA in line with planning permission 2013/6912/P, I confirm that works will be supervised by a chartered structural engineer.

My appointment which should satisfy Condition 6 of the Planning Permission includes the following duties;

1. Provide structural designs, drawings and details for new basement and super structure elements. Provide rebar bending schedules for reinforced concrete elements.
2. As required by Clients Representative attend all necessary site and progress meetings on site or elsewhere as requested.
3. Carry out routine site inspections of site works, both temporary and permanent, to confirm compliance with structural design. During basement works inspections shall be of a frequency of no less than fortnightly or more frequent to suit site construction program or as required by or Clients Representative or Contractor. Super structure works shall be inspected at a frequency of no less than four weeks or more frequent to suit site construction program or as required by Clients Representative or Contractor.
4. Site visits and inspections will be made by a Chartered Engineer with membership of the Institute of Structural Engineers.
5. Notes of visits and inspections will be recorded by Engineer and distrusted to Client for their records.

Yours faithfully,

T. J. Vincent BSc (Hons) C.Eng M.I.Struct. E.
