2018/5633/P	johnny green	03/01/2019 12:28:39	OBJ	<p>i have studied the proposed extension and i strongly feel opposed to the application.</p> <p>From my study where i write this e mail i look at the extension next door which lines up with the line of the terrace and allows a view across the gardens and this is how it should be for each house along the line.</p> <p>if the proposed extension were to go ahead at number 45, i would be looking at a brick wall protruding into an already small garden and the beautiful magnolia tree which creates beautiful light and a sanctuary for wild life would be gone .</p> <p>i would also have the light reduced considerably into my study and kitchen not to mention the extreme loss of light for the house next door.</p> <p>The line of the terrace works very well as it is , the two end of terrace houses have grander extensions and the houses in between are in line .</p> <p>i ask that you help us maintain the terrace just as it is.</p> <p>Business and the ever desperate desire for extra square feet should not destroy the beauty of our neighborhood .</p> <p>we have to hold on carefully to what we have and not let it slip into a frankensteins monster of a terrace.</p>
