Subject: RE: Planning Consent Application Update (2018/2320/P)
Attachments: Sht-1-Senate House Parking Lot Existing .pdf

Hi Nora,

Thanks for getting back to us and sorry for our delayed response. John Bailey has recently left the University for a new position at Plymouth Marjohm University. I'm am now taking the lead on sustainability at the University.

In terms of your queries I can confirm that the cycle stands around the compound are movable, so hopefully that will be okay. Also, in regards to the drawings of the existing compound, the attached drawing shows the spaces between the compound and the curb as you requested.

I hope that allays all your concerns and you're happy to grant the planning permission. However, if you have any other queries just let me know.

All the best,
Matt
