Recipient: Camden Council Planning Committee

Letter: Greetings,

Support Solar Panels for St Mary's Church

Comments

Name	Location	Date	Comment
Phil Cowan	London, England, UK	2018-10-07	Our local community will benefit hugely from embracing renewable energy as well as the wider implications for stabilising climate change in the world as a whole
Christine Driver	London, England, UK	2018-10-08	As has just been announced we need to take climate change seriously and this an important and significant way to do it
Marion Rushbrook	London, England, UK	2018-10-08	They work well at St Anne's Highgate.
Susan Cooper	Harrow, England, UK	2018-10-08	I have solar panels on my and consider it appropriate for churches to have solar panels too. I support Marjorie!
Milica Plinston	London, England, UK	2018-10-08	Good work and good luck!
Emily Kollveit	Oxford, England, UK	2018-10-08	Great idea!
Dee Searle	London, England, UK	2018-10-08	Stopping climate change is becoming ever more urgent
Isabell Kobalz	Paris, France	2018-10-08	Great idea, fingers crossed for the permission !
Trudy R Ganendra	Petaling Jaya, Malaysia	2018-10-09	Love this initiative!
Barbara McIlwrath	Belfast, Northern Ireland, UK	2018-10-09	This church is trying to be a good sterard of God given resources and setting an example to all. We need to stop destroying our planet
Rose Basone	London, England, UK	2018-10-09	We need to take action now to address the issue of climate change.
Eileen Sheehan	London, England, UK	2018-10-09	I think this is a good idea and I support the application. I understand that the panels will be tasteful in their design and the church will benefit from the project.
Paul Hackworth	London, England, UK	2018-10-09	I don't understand why the planners would block this application - but then I don't understand much that Camden planners do. Fantastic idea, especially selling surplus back to the grid to fund community projects.
Nicole Verity	London, England, UK	2018-10-09	Fantastic in so many ways.
Richard Max	London, England, UK	2018-10-09	It's the right call
Ray Bryant	London, England, UK	2018-10-09	Excellent idea and sets a good example of making people aware of the need to find non-polluting sources of power

Name	Location	Date	Comment
			which, in this instance will also help fund other much needed services.
Simon Happily	London, England, UK	2018-10-09	It's great to see a local institution which does a lot of great work with youths etc looking to help protect our environment. I hope Camden supports this application. We need more renewables such as solar power - there seems to be far less in London than in South West England.
James Hamilton	London, England, UK	2018-10-09	It's such a great Church & does so much for others in need...
David Brown	London, England, UK	2018-10-09	Great idea - Percy Deamer would have approved...
Deborah Gozal	Hythe, England, UK	2018-10-09	It makes sense!
patriciaSatow Satow	London, England, UK	2018-10-10	I have had solar for years and hope soon to see it everywhere
Diane Bragg	Stroud, England, UK	2018-10-10	It's great to see a church with a forward-thinking outlook. This project would be an asset to the church, the environment and the local community. Use that God-given sunlight!
pete lyons	London, England, UK	2018-10-10	We ALL need to do something about climate change.
valerie mallon	Swindon, UK	2018-10-10	WHY NOT?These building are expensive to run -and keep warm and dry - why not usetodays technology - I don't think - God - would mind at all - he would bepleased - with the way we are caring for his house - & congregation!!
cat brokenshire	LONDON, UK	2018-10-11	this proposal makes economic and environmental sense
Caroline Cooper	London, England, UK	2018-10-11	Strongly support St Mary's good work
patriciaSatow Satow	London, England, UK	2018-10-11	The more solar being installed in churches, always somewhat chillie places, the better
Sarah Brook	London, England, UK	2018-10-12	I am signing because this is a wonderful initiative and we all urgently need to everything we can to support sustainable projects - congratulations to St. Mary's!
Tom Rubens	London, England, UK	2018-10-13	I am keenly aware of the urgent need to reduce CO2 emissions, and this is an excellent initiative in that direction.
Claudia Boulton	London, England, UK	2018-10-17	1.5 to stay alive mostly.
