Subject: Your Ref: 2019 0111/T Notification of intended tree works at 35A Buckland Crescent NW3 5DJ

Dear Sirs

I refer to your letter of 10 January 2019

In the past I have corresponded with you under your reference lcase 9495620. In that correspondence I advised you that I considered that the trees had become a significant danger to near properties and people in the vicinity. They represent a clear and present danger. The views expressed by me remain and to the extent that the proposed remedial work helps to alleviate this danger I fully support this application.

Please note that the Notice of Liability previously served by me upon The Camden and certain of it's employees remains not withstanding this proposed works which I believe are not adequate to remedy the dangers which I have identified.

Yours faithfully,

Charles K Walford
