

planning permission 2018/5731/L Winter House Swains Lane Highgate N6 Im submitting a view of the above planning permission. 1 I see materials are to be commensurate for listed building status how does this effect any basement? 2 is a basement a good idea in a conservation area and one so close to the cemetery could it effect adjacent buildings sites graves 3 I have no objection to an above ground extension 1/2 storey if that helps nor a new gate/entrance landscaping of the garden im sure will happen as tidying of the road view 4 id ask that builders contractors lorries vans are kept under control, not allowed use out of normal working hours, are considerate builders with the sign, are not going to subject local residents of which I am one passers by or visitors tourists to noise verbal tirades or asb as can and has happened. they are also to be professional competent builders and the lorry van drivers and so on im tired of lousy conduct now 5 I also bow to local opinion and am happy to concur. I remain simon woods
