Subject: 2019/0470/T - Permission to Prune Tree

Notification of Intent 100 Frogal NW3 6XU

We would like permission to prune a Hornbeam tree in our garden on the north side.

Our reasons for this is that it has grown extremely tall and sheds large amounts of leaves and other bits blocking our drains and gullies. The basement flat is vulnerable to flooding and it is hard to keep the gullies clear of the leaves etc so we need this done.

The tree is also blocking out our light.

The property next door at 102 Frogal has had their Hornbeams pruned so it would also be good to keep in line with them so we propose to reduce the height by 2 - 2.5 mts.

Thanking you in advance

James Colville
